

product brand name	RUGGEDCOM		
product type designation	RX1500PN LM APE1404		
	**** Replacement part **** RUGGEDCOM RX1500PN LM APE1404 Line Module Application Processing Engine, 1.3GHz, 2GB RAM, 16GB SATA, Video, USB, Linux		
<b>hardware configuration</b>			
processor clock frequency	1.3 GHz		
storage capacity / on hard disk	16 Gbyte; SATA		
storage capacity / of the RAM	2 Gbyte		
operating system / pre-installed	Linux		
<b>design, dimensions and weights</b>			
product feature / conformal coating	No

<b>security information</b>			
security information	<p>Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit <a href="http://www.siemens.com/cybersecurity-industry">www.siemens.com/cybersecurity-industry</a>. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under <a href="https://www.siemens.com/cert">https://www.siemens.com/cert</a>. (V4.7)</p>
