

TC1210 | TC3 PLC/C++

Extension of the TwinCAT PLC TC1200 with additional C++ functionalities:

- online connection to PLC/C++ runtime system locally or worldwide via TCP/IP or via fieldbus
- online monitoring of variables in variable lists, watch windows and editors without setting break points
- online setting of variables

Technical data	TC1210
Target system	Windows XP, Windows 7/8/10 (Windows CE is not supported)

Ordering information	
TC1210-0030	TC3 PLC/C++, platform 30 (Economy Plus)
TC1210-0040	TC3 PLC/C++, platform 40 (Performance)
TC1210-0050	TC3 PLC/C++, platform 50 (Performance Plus)
TC1210-0060	TC3 PLC/C++, platform 60 (Mid Performance)
TC1210-0070	TC3 PLC/C++, platform 70 (High Performance)
TC1210-0080	TC3 PLC/C++, platform 80 (Very High Performance)
TC1210-0081	TC3 PLC/C++, platform 81 (Many-core 5...8 cores)
TC1210-0082	TC3 PLC/C++, platform 82 (Many-core 9...16 cores)
TC1210-0083	TC3 PLC/C++, platform 83 (Many-core 17...32 cores)
TC1210-0084	TC3 PLC/C++, platform 84 (Many-core 33...64 cores)
TC1210-0090	TC3 PLC/C++, platform 90 (Other)
TC1210-0091	TC3 PLC/C++, platform 91 (Other 5...8 cores)
TC1210-0092	TC3 PLC/C++, platform 92 (Other 9...16 cores)
TC1210-0093	TC3 PLC/C++, platform 93 (Other 17...32 cores)
TC1210-0094	TC3 PLC/C++, platform 94 (Other 33...64 cores)
