

TF6300 | TC3 FTP Client

TwinCAT FTP enables easy access from the PLC to one or several FTP servers with the aid of various function blocks. Files can be loaded to or from a server after the establishment of a connection (optional with authentication). Additional function blocks allow files or directories to be searched for, created, deleted and renamed.

Technical data	TF6300
Required	TC1200
Target system	Windows XP, Windows 7/8/10, Windows CE

Ordering information	
TF6300-0020	TC3 FTP Client, platform 20 (Economy)
TF6300-0030	TC3 FTP Client, platform 30 (Economy Plus)
TF6300-0040	TC3 FTP Client, platform 40 (Performance)
TF6300-0050	TC3 FTP Client, platform 50 (Performance Plus)
TF6300-0060	TC3 FTP Client, platform 60 (Mid Performance)
TF6300-0070	TC3 FTP Client, platform 70 (High Performance)
TF6300-0080	TC3 FTP Client, platform 80 (Very High Performance)
TF6300-0081	TC3 FTP Client, platform 81 (Many-core 5...8 cores)
TF6300-0082	TC3 FTP Client, platform 82 (Many-core 9...16 cores)
TF6300-0083	TC3 FTP Client, platform 83 (Many-core 17...32 cores)
TF6300-0084	TC3 FTP Client, platform 84 (Many-core 33...64 cores)
TF6300-0090	TC3 FTP Client, platform 90 (Other)
TF6300-0091	TC3 FTP Client, platform 91 (Other 5...8 cores)
TF6300-0092	TC3 FTP Client, platform 92 (Other 9...16 cores)
TF6300-0093	TC3 FTP Client, platform 93 (Other 17...32 cores)
TF6300-0094	TC3 FTP Client, platform 94 (Other 33...64 cores)
