

## TF6340 | TC3 Serial Communication

TwinCAT Serial Communication implements communication with serial devices such as printers, bar code scanners, etc. The serial interface of the PC and the serial Beckhoff EL6xxx EtherCAT Terminals and KL6xxx Bus Terminals are supported.

<b>Technical data</b>	<b>TF6340</b>
Required	TC1200
Target system	Windows XP, Windows 7/8/10, Windows CE

Ordering information	
TF6340-0020	TC3 Serial Communication, platform 20 (Economy)
TF6340-0030	TC3 Serial Communication, platform 30 (Economy Plus)
TF6340-0040	TC3 Serial Communication, platform 40 (Performance)
TF6340-0050	TC3 Serial Communication, platform 50 (Performance Plus)
TF6340-0060	TC3 Serial Communication, platform 60 (Mid Performance)
TF6340-0070	TC3 Serial Communication, platform 70 (High Performance)
TF6340-0080	TC3 Serial Communication, platform 80 (Very High Performance)
TF6340-0081	TC3 Serial Communication, platform 81 (Many-core 5...8 cores)
TF6340-0082	TC3 Serial Communication, platform 82 (Many-core 9...16 cores)
TF6340-0083	TC3 Serial Communication, platform 83 (Many-core 17...32 cores)
TF6340-0084	TC3 Serial Communication, platform 84 (Many-core 33...64 cores)
TF6340-0090	TC3 Serial Communication, platform 90 (Other)
TF6340-0091	TC3 Serial Communication, platform 91 (Other 5...8 cores)
TF6340-0092	TC3 Serial Communication, platform 92 (Other 9...16 cores)
TF6340-0093	TC3 Serial Communication, platform 93 (Other 17...32 cores)
TF6340-0094	TC3 Serial Communication, platform 94 (Other 33...64 cores)
