

i TE1420 | TC3 Target for FMI

The TC3 Target for FMI provides an interface for simulation tools that support the Functional Mockup Interface (FMI). The interface enables the generation of TwinCAT 3 runtime modules, which can be instantiated and parameterised in the TwinCAT 3 engineering environment. Models exported with FMI 2.0 – both Model Exchange and Co-Simulation – are supported. There are already a number of solvers available in TwinCAT 3 for the calculations of models exported as Model Exchange.

Technical data	TE1420
Required	TC1000
Target system	Windows 7/8/10

Ordering information	
TE1420	TC3 Target for FMI

i Product announcement	estimated market release 4th quarter 2018
