

TwinCAT 3 Connectivity

TF6421 | TC3 XML Server

The TwinCAT XML Server provides a PLC library enabling write/read access for XML data. The user-friendly XML Server facilitates e.g. the loading of initialisation data, which is often required at machine startup.

Technical data	TF6421
Required	TC1200
Target system	Windows XP, Windows 7/8/10, Windows CE

Ordering information	
TF6421-0020	TC3 XML Server, platform 20 (Economy)
TF6421-0030	TC3 XML Server, platform 30 (Economy Plus)
TF6421-0040	TC3 XML Server, platform 40 (Performance)
TF6421-0050	TC3 XML Server, platform 50 (Performance Plus)
TF6421-0060	TC3 XML Server, platform 60 (Mid Performance)
TF6421-0070	TC3 XML Server, platform 70 (High Performance)
TF6421-0080	TC3 XML Server, platform 80 (Very High Performance)
TF6421-0081	TC3 XML Server, platform 81 (Many-core 5...8 cores)
TF6421-0082	TC3 XML Server, platform 82 (Many-core 9...16 cores)
TF6421-0083	TC3 XML Server, platform 83 (Many-core 17...32 cores)
TF6421-0084	TC3 XML Server, platform 84 (Many-core 33...64 cores)
TF6421-0090	TC3 XML Server, platform 90 (Other)
TF6421-0091	TC3 XML Server, platform 91 (Other 5...8 cores)
TF6421-0092	TC3 XML Server, platform 92 (Other 9...16 cores)
TF6421-0093	TC3 XML Server, platform 93 (Other 17...32 cores)
TF6421-0094	TC3 XML Server, platform 94 (Other 33...64 cores)
