

TwinCAT 3 Engineering

TE1400 | TC3 Target for MATLAB®/Simulink®

The TwinCAT MATLAB®/Simulink® Target offers System Target Files for the use of the MATLAB®/Simulink® coder. It enables the generation of TwinCAT 3 runtime modules, which can be instanced and parameterised in the TwinCAT 3 engineering environment.

Technical data	TE1400
Target system	Windows XP, Windows 7/8
