miniature transmitter with integrated probe  
TTM050C-206A-CF-LI6-H1140-L150 -50...50°C**

- Miniature design
- Analog output 4...20 mA
- Temperature range -50...+50 °C

**Wiring diagram**

**General description**

Temperatures are recorded over a mineral insulated transmitter and converted into a wide range of electrical output signals.

The devices of the TTM miniature series are enclosed in a fully potted plastic housing and depending on the variant, they have either an IO-link output, power output and/or switching output.
